

### **Concord Medical Announces First Quarter 2011 Financial Results**

May 18, 2011

BEIJING, May 18, 2011 /PRNewswire via COMTEX/ --

Concord Medical Services Holdings Limited ("Concord Medical" or the "Company") (NYSE: CCM), the operator of the largest network of radiotherapy and diagnostic imaging centers in China, today announced its unaudited consolidated financial results for the first quarter ended March 31, 2011 (1).

#### First Quarter Fiscal 2011 Highlights

- **Total net revenues** in the first quarter of 2011 were RMB87.4 million (\$13.3 million), a 14.7% increase from the corresponding period in 2010.
- **Gross profit** in the first quarter of 2011 was RMB54.7 million (\$8.4 million), an 11.3% increase from the corresponding period in 2010.
- **Net income** in the first quarter of 2011 was RMB22.9 million (\$3.5 million), a 6.1% increase from the corresponding period in 2010. Both **basic** and **diluted earnings per American depositary share ("ADS")(2)** for the first quarter of 2011 were RMB0.48(\$0.07).
- Non-GAAP net income(3) in the first quarter of 2011 was RMB25.3 million (\$3.9 million), a 5.3% increase from the corresponding period in 2010. Both non-GAAP basic and diluted earnings per ADS for the first quarter of 2011 were RMB0.53(\$0.08).
- Adjusted EBITDA (4) (non-GAAP)in the first quarter of 2011 was RMB65.6 million (\$10.0 million), a 14.7% increase from the corresponding period in 2010.
- Concord Medical added 2 centers in the first quarter of 2011, bringing the total number of centers in operation to 121 in 46 cities in China, as of March 31, 2011. To date, the Company has entered into agreements to establish 30 new centers.
- The number of treatment and diagnostic patient cases were 7,788 and 31,136, respectively, during the first quarter of 2011, representing a 13.4% and 17.2% increase from the corresponding period of 2010.

"In the first quarter of 2011, we delivered an approximately 15% increase in net revenues compared with the first quarter of 2010," said Dr. Jianyu Yang, director, president and chief executive officer of Concord Medical. "The moderate growth can be primarily attributed to the ramp up process in the newly opened centers." Dr. Yang continued, "We are confident in our expansion strategy and growth prospects. We are pushing forward on all fronts including establishing standalone hospitals and centers, developing new centers with hospital partners, pursuing acquisition targets, and increasing utility and efficiency at our existing facilities."

## **Recent Developments**

During the first quarter of 2011, Concord Medical entered into a joint venture agreement with the Oncology Hospital of Zhongshan Medical University, a leading oncology hospital in China, to form a specialty hospital in Guangzhou for cancer diagnosis and treatment. Pursuant to terms of the agreement, Concord Medical is expected to own 70% of the equity interests in the joint venture, which is expected to have 400 patient beds. The joint venture is expected to start operation in 2013.

"The establishment of a joint venture with the Oncology Hospital of Zhongshan Medical University, one of the top cancer hospitals in China, further underlines our strategy to establish a line of standalone facilities alongside our center network on hospital premises," said Dr. Yang. "The purpose of these standalone facilities is to establish the highest benchmark in cancer treatment in China and to strengthen Concord Medical's brand among patients and doctors. Looking forward, Concord Medical intends to continue the expansion of our standalone facilities as a key part of our growth strategy."

On January 6, 2011, Concord Medical announced that it entered into agreements to acquire 52% of the equity interests in Chang'An Hospital from certain shareholders of the hospital for an aggregate consideration of approximately RMB200 million, subject to satisfactory due diligence results and relevant government approval. The acquisition is intended to expand the development of Chang'An CMS International Cancer Center ("CCICC"), a cancer specialty hospital with a focus on cancer diagnosis and treatment services, by consolidating the full capacity of the hospital into CCICC. The acquisition process is currently experiencing a delay in completing the due diligence and the required government approval.

#### First Quarter of 2011 Results

**Total net revenues were**RMB87.4 million (\$13.3 million) for the first quarter of 2011, a 14.7% increase from the corresponding period in 2010. The increase is primarily due to an increase in patient cases from existing centers and the opening of new centers, as well as income from the preliminary operation of CCICC.

Cost of revenues in the first quarter of 2011 was RMB32.7 million (\$5.0 million), a 21.0% increase from the corresponding period in 2010, primarily due to an increase in depreciation costs related to new equipment in 2011.

**Gross profit margin** in the first quarter of 2011 was 62.6% as compared to 72.2% in the fourth quarter of 2010 and 64.5% in the first quarter in 2010. The lower gross profit margin was primarily due to an increase in depreciation and amortization cost as a result of business expansion.

**Operating expenses**, consisting of selling expenses and general and administrative expenses, were RMB19.9 million (\$3.0 million) in the first quarter of 2011 as compared to RMB30.1 million (\$4.6 million) in the fourth quarter of 2010 and RMB17.6 million (\$2.6 million) in the corresponding period in 2010. The year-on-year increase was primarily due to increases in professional expenses, office and travel expenses, and operating expenses as a result of the expanded business size.

**Operating income** was RMB34.8 million (\$5.3 million) in the first quarter of 2011, representing a 10.3% increase from the corresponding period in 2010. **Operating income excluding share-based compensation expenses** (non-GAAP) was RMB37.1 million (\$5.7 million), an 8.8% increase from the corresponding period in 2010.

**Income tax expense** in the first quarter of 2011 was RMB8.9 million (\$1.4 million), compared to an income tax expense of RMB8.5 million (\$1.2 million) in the corresponding period in 2010. The effective tax rate for the first quarter of 2011 was 27.9% as compared to 18.8% in the fourth quarter of 2010 and 28.3% in the corresponding quarter of 2010.

**Net income** in the first quarter of 2011 was RMB22.9 million (\$3.5 million), representing a 6.1% increase from the corresponding period in 2010. Both **basic** and **diluted earnings per ADS** for the first quarter of 2011 were RMB0.48(\$0.07).

Non-GAAP net income in the first quarter of 2011 was RMB25.3 million (\$3.9 million), a 5.3% increase from the corresponding period in 2010. Both non-GAAP basic and diluted earnings per ADS in the first quarter of 2011 were RMB0.53(\$0.08).

**Adjusted EBITDA** (non-GAAP) was RMB65.6 million (\$10.0 million) for the first quarter of 2011, representing a 14.7 % increase from the corresponding period in 2010.

Capital expenditure for the first quarter of 2011 was RMB31.5 million (\$4.8 million). Total depreciation expenses were RMB21.9 million (\$3.3 million). In addition, amortization of acquired intangibles was RMB6.0 million (\$0.9 million).

As of March 31, 2011, the Company had **total fixed assets** of RMB958.2 million (\$146.3 million), **cash** of RMB491.1 million (\$75.0 million), and **restricted cash** of RMB39.8 million (\$6.1 million).

As of March 31, 2011, the Company had **bank credit lines** of RMB2.1 billion (\$315 million), of which RMB89.7 million (\$13.7 million) were drawn down.

Accounts receivable was RMB181.5 million (\$27.7 million) as of March 31, 2011, compared to RMB169.4 million (\$25.7 million) as of December 31, 2010.

Days sales outstanding was approximately 181 days in the first quarter of 2011, up from 127 days in the fourth quarter of 2010 primarily due to seasonality impact.

### **Outlook for Fiscal Year 2011**

Based on current market and operating conditions, estimated business expansion and forecasted patient volume, Concord Medical reiterates its outlook for fiscal year 2011. The Company expects to generate total net revenues in an estimated range of RMB480 million to RMB520 million in 2011, which would represent a 23% to 33% increase from 2010. This estimated range excludes any potential future revenue arising as a result of the currently pending acquisition of equity interests in Chang'An Hospital but includes income from CCICC's preliminary operations. The Company notes that any unanticipated delays in the closing of Chang'An Hospital's acquisition, any failure to obtain CCICC's clinical license and other uncertainties may result in CCICC not achieving its revenue contribution to the Company, which in turn could have a material adverse effect on the Company's business, financial condition and results of operations in 2011 and future periods.

The Company intends to open 25 to 30 new radiotherapy and diagnostic imaging centers, excluding any potential major acquisitions, in 2011. The Company expects total capital expenditures related to these new centers to be in the range of RMB300 million to RMB360 million.

The foregoing reflects Concord Medical's current and preliminary views, which are subject to change.

#### **Conference Call Information**

Concord Medical's management will hold an earnings conference call at 8:00 a.m. Eastern Daylight Time on May 18, 2011 (8:00 p.m.Beijing/Hong Kong time on May 18, 2011).

Dial-in details for the earnings conference call are as follows:

US: + 1.866.831.6243

China: + 10-800-852-1490 China Netcom (South China)

+ 10-800-152-1490 China Telecom (North China) + 10-800-130-0399 China Telecom (South China)

Hong Kong: +800-96-3844 UK: +44 20 7365 8425 International: +1.617.213.8855

Passcode: 63969132

A replay of the conference call may be accessed by phone at the following number until May 25, 2011:

US: +1-888-286-8010 International: +1-617-801-6888 Passcode: 80183295

Additionally, a live and archived webcast of this conference call will be available at <a href="http://ir.cmsholdings.com/">http://ir.cmsholdings.com/</a>.

#### **About Concord Medical**

Concord Medical operates the largest network of radiotherapy and diagnostic imaging centers in China in terms of revenues and the total number of centers in operation per available statistics. As of March 31, 2011, the Company operated a network of 121 centers with 68 hospital partners, spanning 46 cities and 24 provinces and administrative regions in China. Under long-term arrangements with top-tier hospitals in China, the Company provides radiotherapy and diagnostic imaging equipments and manages the daily operations of these centers located on its hospital partners' premises. The Company also provides ongoing training to doctors and other medical personnel in its network of centers to ensure a high level of clinical care for patients.

#### Safe Harbor Statement

This press release contains forward-looking statements, including statements in the section entitled "Outlook for Fiscal Year 2011." These statements constitute "forward-looking" statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as "anticipate," "believe," "estimate," "expect," "forecast," "intend," "may," "plan," "project," "predict," "should" and "will" and similar expressions. These forward looking statements are based upon management's current views and expectations with respect to future events and are not a guarantee of future performance. Furthermore, these statements are, by their nature, subject to a number of risks and uncertainties that could cause actual performance and results to differ materially from those discussed in the forward-looking statements as a result of a number of factors. Such factors include: the number of new radiotherapy and diagnostic imaging centers opened; the increase in the number of patients in existing centers; the establishment of specialty cancer hospitals; changes in the healthcare industry in China, including changes in the healthcare policies and regulations of the PRC government; and technological or therapeutic changes affecting the field of cancer treatment and diagnostic imaging. Further information regarding these and other risks is included in the Company's filings with the U.S. Securities and Exchange Commission at <a href="https://www.sec.gov">www.sec.gov</a>. The Company does not undertake any obligation to update any forward-looking statement, except as required under applicable law.

#### **About Non-GAAP Financial Measures**

To supplement the consolidated financial statements presented in accordance with United States Generally Accepted Accounting Principles (GAAP), Concord Medical uses certain non-GAAP measures. The Company presents certain of its financial information that is adjusted from results based on GAAP to exclude the impact of share-based compensation expense. The Company believes excluding share-based compensation expense from its non-GAAP financial measures is useful for its management and investors to assess and analyze the Company's core operating results as such expense is not directly attributable to the underlying performance of the Company's business operations and do not impact its cash earnings. Concord Medical also believes these non-GAAP measures excluding share-based compensation expense are important in helping investors to understand the Company's current financial performance and future prospects and to compare business trends among different reporting periods on a consistent basis. In addition, Concord Medical also presents the non-GAAP measure of Adjusted EBITDA, which is defined in this announcement as net income plus interest, taxes, depreciation and amortization, share-based compensation expenses and other adjustments. Other adjustments include foreign exchange losses and other income. Furthermore, Adjusted EBITDA eliminates the impact of items that the Company does not consider indicative of the performance of its network of centers. The Company believes investors will similarly use Adjusted EBITDA as one of the key metrics to evaluate its financial performance and to compare its current operating results with corresponding historical periods and with other companies in the healthcare services industry. The presentation of these additional measures should not be considered a substitute for or superior to GAAP results or as being comparable to results reported or forecasted by other companies. The non-GAAP measures have been reconciled to GAAP measures in the attached financial statements.

- (1) This announcement contains translations of certain RMB amounts into U.S. dollars at specified rates solely for the convenience of the reader. Unless otherwise noted, all translations from RMB to U.S. dollars are made at a rate of RMB6.5483 to US\$1.00, the effective noon buying rate as of March 31, 2011 in The City of New York for cable transfers of RMB as certified for customs purposes by the Federal Reserve Bank of New York.
- (2) Each ADS represents three ordinary shares of the Company.
- (3) Non-GAAP net income is defined in this announcement as net income excluding share-based compensation expenses. Share-based compensation was RMB2.4 million (\$0.36 million) in the first quarter of 2011.
- (4) Adjusted EBITDA is defined in this announcement as net income plus interest, taxes, depreciation and amortization, share-based compensation expenses and other adjustments. Other adjustments include foreign exchange losses and other income.
