2020 First Half Financial Results

Network Business

Net revenues from the network business were RMB37.7 million (\$5.3 million), representing a 44.6% decrease from net revenues of RMB68.0 million in the first half of 2019, primarily attributable to the effect of the COVID-19 epidemic and the closure of certain centers in our network of centers. With four centers closed in the first half of 2020, the Company operated a network of 27 centers in 20 cities in China as of June 30, 2020.

Cost of revenues of the network business was RMB14.6 million (\$2.1 million), representing a 58.0% decrease from RMB34.8 million in the first half of 2019.

Gross profit from the network business was RMB23.1 million (\$3.3 million), representing a 30.4% decrease from RMB33.2 million in the first half of 2019. The gross profit margin of the network business for the first half of 2020 was 61.3%, compared to the gross profit margin of 48.8% for the same period last year.

Selling expenses of the network business were RMB19.4 million (\$2.7 million), representing a 108.6% increase from RMB9.3 million in the first half of 2019. Selling expenses as a percentage of net revenues from the network business was 51.5% in the first half of 2020, compared to 13.7% in the first half of 2019. The increase in selling expenses of the network business was mainly due to the increase in advertisement and promotion expenses.

General and administrative expenses of the network business were RMB56.9 million (\$8.1 million), representing a 30.1% decrease from RMB81.4 million in the first half of 2019. General and administrative expenses as a percentage of net revenues from the network business were 150.9% in the first half of 2020, compared to 119.7% in the same period last year. The decrease was mainly because Zhongrong Fund management fees have been fully settled in the second half of 2019.

Comparing to RMB24.8 million in the same period last year, capital expenditures decreased to RMB3.9 million (\$0.6 million) in the first half of 2020, primarily for procuring equipment for network centers.

Accounts receivable were RMB61.1 million (\$8.6 million) as of June 30, 2020, compared to RMB67.1 million as of December 31, 2019. The average period of sales outstanding for accounts receivable (also known as "Days Sales Outstanding") was 298 days in the first half of 2020.

During the first half of 2020, the Company handled 3,837 patient treatment cases and 40,444 patient diagnostic cases, representing a 28.1% decrease and a 45.9% decrease from the same period last year, respectively. The decreases in patient treatment and diagnostic cases were mainly due to the influence of the COVID-19 epidemic.

Hospital Business

Net revenues from the hospital business were RMB45.3 million (\$6.4 million) in the first half of 2020, representing a 43.8% increase from net revenues of RMB31.5 million in the first half of 2019, mainly because the operation of Shanghai Meizhong Jiahe Cancer Center Co., Ltd. has gradually matured and the Imaging Diagnostic Center opened in this April.

Cost of revenues of the hospital business in the first half of 2020 was RMB71.8 million (\$10.2 million), representing a 16.6% increase from cost of revenues of RMB61.6 million in the first half of 2019, mainly because of the preparation and operation of the Imaging Diagnostic Center.

Gross loss from the hospital business was RMB26.5 million (\$3.8 million) in the first half of 2020, compared to RMB30.1 million in same period last year. The gross loss margin of the hospital business for the first half of 2020 was 58.5%, compared to the gross loss margin of 95.8% for the same period last year.

Selling expenses of the hospital business were RMB2.7 million (\$0.4 million) in the first half of 2020, representing an 80.0% increase from selling expenses of RMB1.5 million in the first half of 2019. Selling expenses as a percentage of net revenues from the hospital business was 6.0% in the first half of 2020, compared to 4.8% in the first half of 2019. The increase was mainly because the market research cost increase for the Imaging Diagnosis Center and the Cancer Center.

General and administrative expenses of the hospital business were RMB77.5 million (\$11.0 million) in the first half of 2020, of which employee benefit expenses were RMB31.7 million (\$4.5 million). In the same period of last year, general and administrative expenses of the hospital business were RMB58.1 million. The increase was mainly due to the increase in salary and rental fees for hospitals. General and administrative expenses as a percentage of net revenues from the hospital business was 171.1% in the first half of 2020, compared to 184.4% in the first half of 2019.

Comparing to RMB410.5 million in the first half of 2019, capital expenditures of the hospital were RMB364.9 million (\$51.6 million) in the first half of 2020. The decrease was mainly related to the decrease in construction fees and medical equipment payment for Beijing Proton Medical Center, Shanghai Concord Cancer Center and the Cancer Center.

As of June 30, 2020, accounts receivable from hospital business were RMB11.2 million (\$1.6 million), representing an 18.2% decrease from accounts receivable of RMB13.7 million as of December 31, 2019. The number of Days Sales Outstanding was 50 days in the first half of 2020.

As of June 30, 2020, the Company had bank loans and other borrowings totaling RMB2.0 billion (\$288.6 million).
