Date: May 22, 2013

**Concord Medical Reports First Quarter 2013 Financial Results**

BEIJING, May 21, 2013 /PRNewswire-Asia-FirstCall/ — Concord Medical Services Holdings Limited (“Concord Medical” or the “Company”) (NYSE: CCM), a leading specialty hospital management solution provider and operator of the largest network of radiotherapy and diagnostic imaging centers in China and the parent of Chang’an Hospital, today reported its unaudited consolidated financial results for the first quarter ended March 31, 2013<sup>(1)</sup>.

**First Quarter 2013 Highlights**

- **Total net revenue**, which consists of net revenues generated from the network business and hospital business, was RMB203.9 million (\$32.8 million) in the first quarter of 2013, a 91.1% increase from RMB106.7 million in the first quarter of 2012.
- **Gross profit** in the first quarter of 2013 was RMB71.5 million (\$11.5 million), a 14.8% increase from RMB62.3 million in the first quarter of 2012.
- **Net income attributable to ordinary shareholders** in the first quarter of 2013 was RMB19.7 million (\$3.2 million), an 18.6% decrease from RMB24.2 million in the first quarter of 2012.
- **Basic and diluted earnings per American depositary share (“ADS”)<sup>(2)</sup>** in the first quarter of 2013 were RMB0.44 (\$0.07).
- **Adjusted EBITDA<sup>(3)</sup>** (non-GAAP) in the first quarter of 2013 was RMB89.0 million (\$14.3 million), a 21.0% increase from RMB73.6 million in the first quarter of 2012.

Dr. Jianyu Yang, Chairman and Chief Executive Officer of Concord Medical, stated, “I am pleased with the financial results of first quarter of 2013, especially the strong revenue growth, healthy gross profit and Adjusted EBITDA compared with the first quarter of 2012. During the quarter, we benefited from the continuously increasing demand from the general population for high-quality and affordable healthcare services. We saw a positive momentum in patient number growth in both our network and hospital businesses.”

“Since 2012, we have increased our investment in the telemedicine and web business units. In telemedicine, we are building a network based on data transmission and storage technology that will enable doctors and physicists in our network to more easily communicate and consult with each other on cases. We are also setting up telemedicine centers in hospitals in remote areas so that the doctors there can benefit from the knowledge and expertise of other doctors in the CCM network. We have also invested in web-based and mobile marketing business units that will help our centers targeting new patients more effectively. We believe that these new business units will bring incremental future revenues to the company. We plan to continue investing in these business units.”

---

“Based on our estimates of the business environment and progress so far in 2013, we are confident that we will achieve the 2013 revenue targets of RMB930 million to RMB975 million issued in the first quarter.”

“On May 15, 2013, we announced the signing of a \$50 million loan package with International Finance Corporation (“IFC”). We will use the loan to expand our network of radiotherapy centers in China as well as to build the planned specialty hospitals in Beijing and Guangzhou. These hospitals represent crucial components of our growth strategy to create a nationwide network of oncology centers and specialty hospitals, providing high-quality radiotherapy services to all of our patients in China.”

“We plan to start construction of our specialty cancer hospital in Guangzhou during the second half of 2013. Also, we have made progress towards obtaining the necessary administrative approvals related to the Beijing hospital project, in cooperation with Sino-Japanese Friendship Hospital. Once both hospitals are open, they will provide high-end radiotherapy services, based on international standard of quality assurance and planning.”

#### **Recent Developments**

*IFC loan Agreement* – On May 15, 2013, the Company announced that it had signed a US\$50 million loan package agreement with IFC, a member of the World Bank Group focusing on private sector development in emerging markets.

*Share repurchase program* – On October 9, 2012, the Company announced that its board of directors has approved the extension of its share repurchase program originally approved by the board of directors on September 30, 2011. During the first quarter of 2013, the Company repurchased 105,067 ADSs, representing 315,201 ordinary shares for a total \$0.4 million, including commissions.

Through March 31, 2013, the Company has repurchased 2,293,808 ADSs, representing 6,881,424 ordinary shares, in the open market, for a total consideration of \$8,068,225 (including commissions) under the share repurchase program. As of March 31, 2013, the Company had 18.9 million ADSs outstanding, representing 56.7 million ordinary shares.

#### **First quarter 2013 results by segment**

##### ***Network business***

The Company added one radiotherapy center in the first quarter of 2013, bringing the total number of centers in operation to 137 in 54 cities in China as of March 31, 2013. As of the same date, the Company had entered into agreements to establish 11 additional centers.

---

Net revenues from the network business were RMB111.7 million (\$18.0 million) for the first quarter of 2013, representing an increase of 4.6% from the first quarter of 2012, primarily due to increase in number of patients in our existing centers as well as contribution from the new centers opened during 2012.

Gross profit margin of the network business was 55.4% for the first quarter of 2013, as compared with 58.4% for the first quarter of 2012. The lower gross profit margin was primarily due to increased compensation and operating cost at our centers.

Capital expenditure of the network business was RMB33.8 million (\$5.4 million) for the first quarter of 2013, compared with RMB36.0 million in the first quarter of 2012.

Selling expenses in the network business were RMB16.5 million (\$2.7 million) for the first quarter of 2013, representing an increase of 106% from the first quarter of 2012. The increase was mainly due to selling expenses relating to our telemedicine and web business of RMB4.5 million (\$0.7 million). The Company also incurred higher marketing and promotion expenses relating to newly opened centers.

General and administrative expenses in the network business were RMB20.8 million (\$3.4 million), representing an increase of 22.9% from the first quarter of 2012. The increase was mainly due to general and administrative expenses relating to the telemedicine and web business of RMB2.1 million (\$0.3 million).

Accounts receivable from the network business was RMB185.9 million (\$29.9 million) as of March 31, 2013, as compared to RMB168.3 million as of December 31, 2012. The average period of sales outstanding for accounts receivable, or Days Sales Outstanding (DSO) was 155 days for the first quarter of 2013, as compared to 153 days for the fourth quarter of 2012.

As of March 31, 2013, the Company, not including Chang'an Hospital, had bank credit lines of RMB2,217 million (\$357.1 million), of which RMB912.0 million (\$146.8 million) was utilized.

During the first quarter of 2013, the Company handled 7,517 patient treatment cases and 71,084 patient diagnostic cases in the center network, representing a 4.4% decrease and 59.6% increase from the first quarter of 2012, respectively.

---

### ***Hospital business***

Financial results of Chang'an Hospital were consolidated into our results of operations since the third quarter of 2012 after we consummated the acquisition of 52% equity interest in Chang'an Hospital. Net revenues from the hospital business were RMB92.3 million (\$14.9 million) for the first quarter of 2013, which consisted of:

- outpatient revenues of RMB18.4 million (\$3.0 million), representing 20% of the net revenues from the hospital business;
- inpatient revenues of RMB34.1 million (\$5.5 million), representing 37% of the net revenues from the hospital business; and
- medicine revenues of RMB39.8 million (\$6.4 million), representing 43% of the net revenues from the hospital business.

Cost of service for the hospital business for the first quarter of 2013 was RMB82.6 million (\$13.3 million), of which the medicine cost was RMB33.9 million (\$5.5 million) and the medical service cost was RMB48.7 million (\$7.8 million).

Gross profit margin of the hospital business was 10.5% for the first quarter of 2013.

Capital expenditure of the hospital business was RMB9.8 million (\$1.6 million) for the first quarter of 2013.

General and administrative expenses in the hospital business were RMB4.6 million (\$0.7 million).

As of March 31, 2013, Chang'an Hospital had accounts receivable of RMB30.8 million (\$5.0 million), representing days sales outstanding of 36 days, as compared to 34 days for the fourth quarter of 2012. The accounts receivable was mainly from medical revenues covered by various government-sponsored insurance programs. Chang'an Hospital settles the balance with the local social insurance bureau on a periodic basis.

Chang'an Hospital received 117,773 outpatients and 7,530 inpatients for the first quarter of 2013. The average bed utilization for the quarter was 89.2%. The average days of hospital stay was 10.0 days per patient for the quarter. Chang'an Hospital operated 1,015 beds as of March 31, 2013.

Chang'an Hospital is a leading private-owned, general service, for-profit hospital, located in Xi'an, Shanxi Province. Established in 2002, Chang'an Hospital had 57 departments with over 1,250 medical and non-medical staff as of March 31, 2013.

### **2013 Outlook**

Based on current market and operating conditions, estimated business expansion and forecasted Chang'an Hospital financial results, Concord Medical expects to generate total net revenues in an estimated range of RMB930 million to RMB975 million in 2013, which would represent a 40% to 47% increase from 2012. The revenues from network business and hospital business as percentages to total revenues are expected to be approximately 55% and 45% in 2013, respectively. Finally, the Company is targeting to start construction of the specialty cancer oncology hospital in Guangzhou in 2013.

### **Safe Harbor Statement**

This news release may contain “forward-looking” statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as “anticipate,” “believe,” “estimate,” “expect,” “forecast,” “intend,” “may,” “plan,” “project,” “predict,” “should” and “will” and similar expressions. These forward looking statements are based upon management’s current views and expectations with respect to future events and are not a guarantee of future performance. Furthermore, these statements are by their nature, subject to a number of risks and uncertainties that could cause actual performance and results to differ materially from those discussed in the forward-looking statements as a result of a number of factors. Such factors include: the number of new radiotherapy and diagnostic imaging centers opened; the increase in the number of patients in existing centers; the establishment of specialty cancer hospitals; changes in the healthcare industry in China, including changes in the healthcare policies and regulations of the PRC government; technological or therapeutic changes affecting the field of cancer treatment and diagnostic imaging; and possible effects on consumers and hospitals, hospital construction, and suppliers, as a result of inflation and the Chinese government’s policies and actions to control inflation. Further information regarding these and other risks is included in the Company’s filings with the U.S. Securities and Exchange Commission, which are available at [www.sec.gov](http://www.sec.gov). The Company does not assume any obligation to update any forward-looking statement, except as required by law.

### **About Non-GAAP Financial Measures**

To supplement the consolidated financial statements presented in accordance with United States Generally Accepted Accounting Principles (“GAAP”), Concord Medical uses certain non-GAAP measures. The Company presents certain of its financial information that is adjusted from results based on GAAP to exclude the impact of share-based compensation expense. The Company believes excluding share-based compensation expense from its GAAP financial measures is useful for its management and investors to assess and analyze the Company’s core operating results, as such expense is not directly attributable to the underlying performance of the Company’s business operations and do not impact its current cash earnings. Concord Medical also believes these non-GAAP measures excluding share-based compensation expense are important in helping investors to understand the Company’s current financial performance and future prospects and to compare business trends among different reporting periods on a consistent basis. In addition, Concord Medical also presents the non-GAAP measure of Adjusted EBITDA, which is defined in this announcement as net income plus interest, taxes, depreciation and amortization, share-based compensation expenses, and other adjustments. Other adjustments include foreign exchange losses and other expense income. Furthermore, Adjusted EBITDA eliminates the impact of items that the Company does not consider to be indicative of the performance of the network business and hospital business. The Company believes investors will similarly use Adjusted EBITDA as one of the key metrics to evaluate its financial performance and to compare its current operating results with corresponding historical periods and with other companies in the healthcare services industry. The presentation of these additional measures should not be considered a substitute for or superior to GAAP results or as being comparable to results reported or forecasted by other companies. The non-GAAP measures have been reconciled to GAAP measures in the attached financial information.
